

READY TO RALLY YOUR SQUAD?

We know **extremists want to implement their agenda at every level of government** but we can defeat them and win these critical elections. How? By making sure our friends and family know what is at stake and turning them out to vote for each and every race on their ballot. Together we will protect our freedoms and our democracy!

Red Wine & Blue is here to support you in this important work. This **toolkit** has all the information you need to join our **Rally Your Squad crew** as well as helpful tips on how to talk to family and friends. And we promise to have fun together as well! Look for opportunities throughout the year to join virtual events for Rally Your Squad members, receive messaging on important issues and get the training you need to have effective conversations. Let's do this!
